JOURNAL OF SPEECH AND HEARING RESEARCH
INDEX TO VOLUME 29, 1986

AUTHOR INDEX 569
SUBJECT INDEX 570
TITLE INDEX 572

AUTHOR INDEX

Abbas, P. J. *See* Forrest et al., Dec. 1986, 549-562.

Ahlstrom, C. *See* Humes et al., Dec. 1986, 447-462.

Askenfelt, A. G., & Hammarberg, B. Speech waveform perturbation analysis: A perceptual-acoustical comparison of seven measures. March 1986, 50-64.

Barlow, S. M., & Netsell, R. Differential fine force control of the upper and lower lips. June 1986, 163-169.

Beauchaine, K. A., Gorga, M. P., Reiland, J. K., & Larson, L. L. Application of ABRs to the hearing-aid selection process: Preliminary data. March 1986, 120-128.

Bell, T. S. *See* Humes et al., Dec. 1986, 447-462.

Bergmann, G. Studies in stuttering as a prosodic disturbance. Sept. 1986, 290-300.

Blair, C., & Smith, A. EMG recording in human lip muscles: Can single muscles be isolated? June 1986, 256-266.

Blair, C. Interdigitating muscle fibers throughout orbicularis oris inferior: Preliminary observations. June 1986, 266-269.

Block, M. G., & Wiley, T. L. Acoustic-reflex growth for multitone complexes. March 1986, 92-98.

Braida, L. D. *See* Picheny et al., Dec. 1986, 434-446.

Brandt, F. *See* Revoile et al., June 1986, 240-255.

Brinton, B., Fujiki, M., Frome Loeb, D., & Winkler, E. Development of conversational repair strategies in response to requests for clarification. March 1986, 75-81.

Brookshire, R. H. *See* Nicholas & Brookshire, Dec. 1986, 462-470.

Canty, J. L. *See* Folkins & Canty, Sept. 1986, 348-356.

Cedar, I. *See* Dorman et al., Sept. 1986, 420-424.

Chomsky, C. Analytic study of the Tadoma method: Language abilities of three deaf-blind subjects. Sept. 1986, 332-347.

Christensen, J. *See* Robbins et al., Dec. 1986, 499-504.

Cole, K. N., & Dale, P. S. Direct language instruction and interactive language instruction with language delayed preschool children: A comparison study. June 1986, 206-217.

Connell, P. J. Acquisition of semantic role by language-disordered children: Differences between production and comprehension. Sept. 1986, 366-374.

Connell, P. J. Teaching subjecthood to language-disordered children. Dec. 1986, 481-492.

Conture, E., Rothenberg, M., & Molitor, R. D. Electroglottographic observations of young stutterers' fluency. Sept. 1986, 384-393.

Cox, R. M., & Gilmore, C. Damping the hearing aid frequency response: Effects on speech clarity and preferred listening level. Sept. 1986, 357-365.

Craig, H., & Gallagher, T. M. Interactive play: The frequency of related verbal responses. Sept. 1986, 375-383.

Dale, P. S. *See* Cole & Dale, June 1986, 206-217.

Danhauer, J. L. *See* Doyle et al., June 1986, 179-192.

Dardarananda, R. *See* Gandour et al., Dec. 1986, 563-568.

Davidson, R. *See* Scarborough et al., Sept. 1986, 394-399.

Demorest, M. E., & Erdman, S. A. Scale composition and item analysis of the Communication Profile for the Hearing Impaired. Dec. 1986, 515-535.

Dermody, P. *See* Mackie & Dermody, June 1986, 275-281.

Dirks, D. D. *See* Humes et al., Dec. 1986, 447-462.

Dorman, M., Cedar, I., Hannley, M., Leek, M., & Lindholm, J. M. Influence of the acoustic reflex on vowel recognition. Sept. 1986, 420-424.

Doyle, K. J., Danhauer, J. L., & Edgerton, B. J. Vowel perception: Experiments with a single-electrode cochlear implant. June 1986, 179-192.

Durlach, N. I. *See* Picheny et al., Dec. 1986, 434-446.

Dyson, A. T. Development of velar consonants among normal two-year-olds. Dec. 1986, 493-498.

Edgerton, B. J. *See* Doyle et al., June 1986, 179-192.

Erdman, S. A. *See* Demorest & Erdman, Dec. 1986, 515-535.

Fabry, D. A., & Van Tasell, D. J. Masked and filtered simulation of hearing loss: Effects on consonant recognition. June 1986, 170-178.

Fletcher, S. G. Visual feedback and lip-positioning skills of children with and without impaired hearing. June 1986, 231-239.

Flexer, C., & Gans, D. P. Distribution of auditory response behaviors in normal infants and profoundly multihandicapped children. Sept. 1986, 425-429.

Folkins, J. W., & Canty, J. L. Movements of the upper and lower lips during speech: Interactions between lips with the jaw fixed at different positions. Sept. 1986, 348-356.

Formby, C. Modulation detection by patients with eighth-nerve tumors. Sept. 1986, 413-419.

Forrest, K., Abbas, P. J., & Zimmermann, G. N. Effects of white noise masking and low pass filtering on speech kinematics. Dec. 1986, 549-562.

Frome Loeb, D. *See* Brinton et al., March 1986, 75-81.

Fromm, D., Greenhouse, J. B., Holland, A. L., & Swindell, C. S. An application of exploratory statistical methods to language pathology: Analysis of the Western Aphasia Battery's Cortical Quotient in acute stroke patients. March 1986, 135-142.

Fujiki, M. *See* Brinton et al., March 1986, 75-81.

Gallagher, T. M. *See* Craig & Gallagher, Sept. 1986, 375-383.

SUBJECT INDEX

HEARING

Nature of Hearing and Its Disorders

Normal Auditory Systems

Acoustic-reflex growth for multitone complexes. Block, M. G., & Wiley, T. L. March 1986, 92-98.
Application of the Articulation Index and the Speech Transmission Index to the recognition of speech by normal-hearing and hearing-impaired listeners. Humes, L. E., Dirks, D. D., Bell, T. S., Ahlstrom, C., & Kincaid, G. E. Dec. 1986, 447-462.
Distribution of auditory response behaviors in normal infants and profoundly multihandicapped children. Flexer, C., & Gans, D. P. Sept. 1986, 425-429.
Effects of direction and rate of ear-canal pressure changes on tympanometric measures. Shanks, J. E., & Wilson, R. H. March 1986, 11-19.
Influence of the acoustic reflex on vowel recognition. Dorman, M., Cedar, L., Hannley, M., Leek, M., & Lindholm, J. M. Sept. 1986, 420-424.
Middle-latency and 40 Hz auditory evoked responses in normal-hearing subjects: Click and 500 Hz thresholds. Kileny, P., & Shea, S. L. March 1986, 20-28.
Tinnitus induced by tones. Kemp, S., & Plaisted, I. D. March 1986, 65-70.

Auditory and Other Otic Pathologies

Magnitude estimation and the "paradoxical" loudness of tinnitus. Penner, M. J. Sept. 1986, 407-412.
Modulation detection by patients with eighth-nerve tumors. Formby, C. Sept. 1986, 413-419.
Tinnitus induced by tones. Kemp, S., & Plaisted, I. D. March 1986, 65-70.

Hearing Loss and Deafness

Application of the Articulation Index and the Speech Transmission Index to the recognition of speech by normal-hearing and hearing-impaired listeners. Humes, L. E., Dirks, D. D., Bell, T. S., Ahlstrom, C., & Kincaid, G. E. Dec. 1986, 447-462.
Effects of aging on response criteria in speech-recognition tasks. Gordon-Salant, S. June 1986, 155-162.
Magnitude estimation and the "paradoxical" loudness of tinnitus. Penner, M. J. Sept. 1986, 407-412.
Marking word boundaries to improve the intelligibility of the speech of the deaf. Maassen, B. June 1986, 227-230.
Masked and filtered simulation of hearing loss: Effects on consonant recognition. Fabry, D. A., & Van Tasell, D. J. June 1986, 170-178.
Modulation detection by patients with eighth-nerve tumors. Formby, C. Sept. 1986, 413-419.
Previous experience as a confounding factor in comparing cochlear-implant processing schemes. Tyler, R. S., Preece, J. P., Lansing, C. R., Otto, S. R., & Gantz, B. J. June 1986, 282-287.
Scale composition and item analysis of the Communication Profile for the hearing impaired. Demorest, M. E., & Erdman, S. A. Dec. 1986, 515-535.
A signal-to-noise ratio for the speech-reception threshold of the Hearing Impaired. Plomp, R. June 1986, 146-154.
Speaking clearly for the hard of hearing II: Acoustic characteristics of clear and conversational speech. Picheny, M. A., Durlach, N. I., & Braida, L. D. Dec. 1986, 434-446.
Speech cue enhancement for the hearing impaired: I. Altered vowel durations for perception of final fricative voicing. Revoile, S. G., Holden-Pitt, L., Pickett, J. M., & Brandt, F. June 1986, 240-255.
Tinnitus as a source of internal noise. Penner, M. J. Sept. 1986, 400-406.
Vowel perception: Experiments with a single-electrode cochlear implant. Doyle, K. J., Danhauer, J. L., & Edgerton, B. J. June 1986, 179-192.

Effects of Noise and Issues in Hearing Conversation

Magnitude estimation and the "paradoxical" loudness of tinnitus. Penner, M. J. Sept. 1986, 407-412.

Assessment of Hearing

Psychoacoustics

Comparison of pure-tone audibility thresholds obtained with audiological and forced-choice procedures. Marshall, L., & Jesteadt, W. March 1986, 82-91.
Magnitude estimation and the "paradoxical" loudness of tinnitus. Penner, M. J. Sept. 1986, 407-412.
Modulation detection by patients with eighth-nerve tumors. Formby, C. Sept. 1986, 413-419.
Tinnitus as a source of internal noise. Penner, M. J. Sept. 1986, 400-406.
Vowel perception: Experiments with a single-electrode cochlear implant. Doyle, K. J., Danhauer, J. L., & Edgerton, B. J. June 1986, 179-192.

Acoustical Instruments, Measurements, and Standards

Application of the Articulation Index and the Speech Transmission Index to the recognition of speech by normal-hearing and hearing-impaired listeners. Humes, L. E., Dirks, D. D., Bell, T. S., Ahlstrom, C., & Kincaid, G. E. Dec. 1986, 447-462.

Diagnostic Audiology—General

Modulation detection by patients with eighth-nerve tumors. Formby, C. Sept. 1986, 413-419.

Specific Diagnostic Techniques and Approaches

ACOUSTIC IMMITTANCE

Acoustic-reflex growth for multitone complexes. Block, M. G., & Wiley, T. L. March 1986, 92-98.

Simulation of pathological high impedance tympanograms. Van Camp, K. J., Shanks, J. E., & Margolis, R. H. Dec. 1986, 505-514.

BEHAVIORAL

Distribution of auditory response behaviors in normal infants and profoundly multihandicapped children. Flexer, C., & Gans, D. P. Sept. 1986, 425-429.

Effects of aging on response criteria in speech-recognition tasks. Gordon-Salant, S. June 1986, 155-162.

Modulation detection by patients with eighth-nerve tumors. Formby, C. Sept. 1986, 413-419.

Scale composition and item analysis of the Communication Profile for the Hearing Impaired. Demorest, M. E., & Erdman, S. A. Dec. 1986, 515-535.

ELECTROPHYSIOLOGIC

Application of ABRs to the hearing-aid selection process: Preliminary data. Beauchaine, K. A., Gorga, M. P., Reiland, J. K., & Larson, L. L. March 1986, 120-128.

Middle-latency and 40-Hz auditory evoked responses in normal-hearing subjects: Click and 500 Hz thresholds. Kileny, P., & Shea, S. L. March 1986, 20-28.

PEDIATRIC

Distribution of auditory response behaviors in normal infants and profoundly multihandicapped children. Flexer, C., & Gans, D. P. Sept. 1986, 425-429.

Use of a monosyllabic adaptive speech test (MAST) with young children. Mackie, K., & Dermody, P. June 1986, 275-281.

SPEECH

Effects of aging on response criteria in speech-recognition tasks. Gordon-Salant, S. June 1986, 155-162.

Previous experience as a confounding factor in comparing cochlear-implant processing schemes. Tyler, R. S., Preece, J. P., Lansing, C. R., Otto, S. R., & Gantz, B. J. June 1986, 282-287.

Speech cue enhancement for the hearing impaired: I. Altered vowel durations for perception of final fricative voicing. Revoile, S. G., Holden-Pitt, L., Pickett, J. M., & Brandt, F. June 1986, 240-255.

Use of a monosyllabic adaptive speech test (MAST) with young children. Mackie, K., & Dermody, P. June 1986, 275-281.

Vowel perception: Experiments with a single-electrode cochlear implant. Doyle, K. J., Danhauer, J. L., & Edgerton, B. J. June 1986, 179-192.

INTERVENTION

Habilitation, Rehabilitation, and Education

Audiologic and nonaudiologic correlates of hearing handicap in black elderly. Marcus-Bernstein, C. Sept. 1986, 301-312.

Scale composition and item analysis of the Communication Profile for the Hearing Impaired. Demorest, M. E., & Erdman, S. A. Dec. 1986, 515-535.

Speech cue enhancement for the hearing impaired: I. Altered vowel durations for perception of final fricative voicing. Revoile, S. G., Holden-Pitt, L., Pickett, J. M., & Brandt, F. June 1986, 240-255.

Hearing Aids and Other Prostheses

Application of ABRs to the hearing-aid selection process: Preliminary data. Beauchaine, K. A., Gorga, M. P., Reiland, J. K., & Larson, L. L. March 1986, 120-128.

Comparison of hearing-aid gain using functional, coupler, and probe-tube measurements. Mason, D., & Popelka, G. R. June 1986, 218-226.

Damping the hearing aid frequency response: Effects on speech clarity and preferred listening level. Cox, R. M., & Gilmore, C. Sept. 1986, 357-365.

Previous experience as a confounding factor in comparing cochlear-implant processing schemes. Tyler, R. S., Preece, J. P., Lansing, C. R., Otto, S. R., & Gantz, B. J. June 1986, 282-287.

A signal-to-noise ratio for the speech-reception threshold of the hearing impaired. Plomp, R. June 1986, 146-154.

Vowel perception: Experiments with a single-electrode cochlear implant. Doyle, K. J., Danhauer, J. L., & Edgerton, B. J. June 1986, 179-192.

GERIATRIC

Effects of aging on response criteria in speech-recognition tasks. Gordon-Salant, S. June 1986, 155-162.

VISUAL/MOTOR COMPENSATION

Visual feedback and lip-positioning skills of children with and without impaired hearing. Fletcher, S. G. June 1986, 231-239.

COCHLEAR IMPLANTS

Previous experience as a confounding factor in comparing cochlear-implant processing schemes. Tyler, R. S., Preece, J. P., Lansing, C. R., Otto, S. R., & Gantz, B. J. June 1986, 282-287.

AGING

Audiologic and nonaudiologic correlates of hearing handicap in black elderly. Marcus-Bernstein, C. Sept. 1986, 301-312.

SELF-ASSESSMENT

Scale composition and item analysis of the Communication Profile for the Hearing Impaired. Demorest, M. E., & Erdman, S. A. Dec. 1986, 515-535.

LANGUAGE

NATURE OF NORMAL LANGUAGE

Language Development

Acquisition of semantic role by language-disordered children: Differences between production and comprehension. Connell, P. J. Sept. 1986, 366-374.

Communicative interactions of mildly delayed and normally developing preschool children: Effects of listener's developmental level. Guralnick, M. J., & Paul-Brown, D. March 1986, 2-10.

Conversational replies of children with specific language impairment. Leonard, L. B. March 1986, 114-119.

Development of velar consonants among normal two-year-olds. Dyson, A. T. Dec. 1986, 493-498.

Interactive play: The frequency of related verbal responses. Craig, H., & Gallagher, T. M. Sept. 1986, 375-383.

A reconsideration of the relation between age and mean utterance length. Scarborough, H., Wyckoff, J., & Davidson, R. Sept. 1986, 394-399.

Sample size and type-token ratios for oral language of preschool children. Hess, C. W., Sefton, K. M., & Landry, R. G. March 1986, 129-134.

Teaching subjecthood to language-disordered children. Connell, P. J. Dec. 1986, 481-492.

LANGUAGE DISORDERS

Aphasia and Other Adult Language Disorders

Consistency of the effects of rate of speech on brain-damaged adults' comprehension of narrative discourse. Nicholas, L. E., & Brookshire, R. H. Dec. 1986, 462-470.

Wh interrogative production in agrammatic aphasia: An experimental analysis of auditory-visual stimulation and direct-production treatment. Thompson, C. K., & McReynolds, L. V. June 1986, 193-206.

Language Disorders in Children

Acquisition of semantic role by language-disordered children: Differences between production and comprehension. Connell, P. J. Sept. 1986, 366-374.

Conversational replies of children with specific language impairment. Leonard, L. B. March 1986, 114-119.

Direct language instruction and interactive language instruction with language delayed preschool children: A comparison study. Cole, K. N., & Dale, P. S. June 1986, 206-217.

Interactive play: The frequency of related verbal responses. Craig, H., & Gallagher, T. M. Sept. 1986, 375-383.

Sample size and type-token ratios for oral language of preschool children. Hess, C. W., Sefton, K. M., & Landry, R. G. March 1986, 129-134.

Teaching subjecthood to language-disordered children. Connell, P. J. Dec. 1986, 481-492.

Language Disorders in Mental Retardation

Communicative interactions of mildly delayed and normally developing preschool children: Effects of listener's developmental level. Guralnick, M. J., & Paul-Brown, D. March 1986, 2-10.

ASSESSMENT AND INTERVENTION

Assessment

Acquisition of semantic role by language-disordered children: Differences between production and comprehension. Connell, P. J. Sept. 1986, 366-374.

Analytic study of the Tadoma method: Language abilities of three deaf-blind subjects. Chomsky, C. Sept. 1986, 332-347.

A reconsideration of the relation between age and mean utterance length. Scarborough, H., Wyckoff, J., & Davidson, R. Sept. 1986, 394-399.

Sample size and type-token ratios for oral language of preschool children. Hess, C. W., Sefton, K. M., & Landry, R. G. March 1986, 129-134.

Intervention

Acquisition of semantic role by language-disordered children: Differences between production and comprehension. Connell, P. J. Sept. 1986, 366-374.

Analytic study of the Tadoma method: Language abilities of three deaf-blind subjects. Chomsky, C. Sept. 1986, 332-347.

Direct language instruction and interactive language instruction with language delayed preschool children: A comparison study. Cole, K. N., & Dale, P. S. June 1986, 206-217.

Teaching subjecthood to language-disordered children. Connell, P. J. Dec. 1986, 481-492.

Wh interrogative production in agrammatic aphasia: An experimental analysis of auditory-visual stimulation and direct-production treatment. Thompson, C. K., & McReynolds, L. V. June 1986, 193-206.

CHILD DISCOURSE

Development of conversational repair strategies in response to requests for clarification. Brin-

ton, B., Fujiki, M., Frome Loeb, D., & Winkler, E. March 1986, 75-81.

CONVERSATIONAL REPAIRS

Development of conversational repair strategies in response to requests for clarification. Brinton, B., Fujiki, M., Frome Loeb, D., & Winkler, E. March 1986, 75-81.

LANGUAGE IN THE DEAF-BLIND

Analytic study of the Tadoma method: Language abilities of three deaf-blind subjects. Chomsky, C. Sept. 1986, 332-347.

SPEECH

NATURE OF NORMAL SPEECH

Development of Speech and Voice

Articulation development in preschool children: Consistency of productions. Kenney, K. W., & Prather, E. M. March 1986, 29-36.

A computer-controlled vowel corrector for the hearing-impaired. Povel, D., & Wansink, M. March 1986, 99-105.

Development of velar consonants among normal two-year-olds. Dyson, A. T. Dec. 1986, 493-498.

Relationship between intraoral air pressure and vocal intensity in children and adults. Stathopoulos, E. T. March 1986, 71-74.

Speaking clearly for the hard of hearing II: Acoustic characteristics of clear and conversational speech. Picheny, M. A., Durlach, N. I., & Braida, L. D. Dec. 1986, 434-446.

Anatomy and Physiology of the Adult Speech System

Body type and speech breathing. Hoit, J. D., & Hixon, T. J. Sept. 1986, 313-324.

Differential fine force control of the upper and lower lips. Barlow, S. M., & Netsell, R. June 1986, 163-169.

Effects of white noise masking and low pass filtering on speech kinematics. Forrest, K., Abbas, P. J., & Zimmermann, G. N. Dec. 1986, 549-562.

EMG recording in human lip muscles: Can single muscles be isolated? Blair, C., & Smith, A. June 1986, 256-266.

India ink pinprick assessment of age-related changes in the cricoarytenoid joint (CAJ) articular surfaces. Kahn, A. R., & Kahane, J. C. Dec. 1986, 536-543.

India ink pinprick experiments on surface organization of cricoarytenoid joints. Kahane, J. C., & Kahn, A. R. Dec. 1986, 544-548.

Interactions between speech and finger movements: An exploration of the dynamic pattern perspective. Smith, A., McFarland, D. H., & Weber, C. M. Dec. 1986, 471-480.

Interdigitating muscle fibers throughout orbicularis oris inferior: Preliminary observations. Blair, C. June 1986, 266-269.

Intraoral air pressure and oral air flow under different bleed and bite-block conditions. Putnam, A. H. B., Shelton, R. L., & Kastner, C. U. March 1986, 37-49.

Movements of the upper and lower lips during speech: Interactions between lips with the jaw fixed at different positions. Folkins, J. W., & Canty, J. L. Sept. 1986, 348-356.

Perception of Speech

Application of the Articulation Index and the Speech Transmission Index to the recognition of speech by normal-hearing and hearing-impaired listeners. Humes, L. E., Dirks, D. D., Bell, T. S., Ahlstrom, C., & Kincaid, G. E. Dec. 1986, 447-462.

Marking word boundaries to improve the intelligibility of the speech of the deaf. Maassen, B. June 1986, 227-230.

Masked and filtered simulation of hearing loss: Effects on consonant recognition. Fabry, D. A., & Van Tasell, D. J. June 1986, 170-178.

Speaking clearly for the hard of hearing II: Acoustic characteristics of clear and conversational speech. Picheny, M. A., Durlach, N. I., & Braida, L. D. Dec. 1986, 434-446.

Vowel perception: Experiments with a single-electrode cochlear implant. Doyle, K. J., Danhauer, J. L., & Edgerton, B. J. June 1986, 179-192.

SPEECH AND VOICE DISORDERS

Articulation and Resonance Disorders

Intraoral air pressure and oral air flow under different bleed and bite-block conditions. Putnam, A. H. B., Shelton, R. L., & Kastner, C. U. March 1986, 37-49.

Marking word boundaries to improve the intelligibility of the speech of the deaf. Maassen, B. June 1986, 227-230.

Stuttering and Other Fluency Disturbances

Acoustic measures of stutterers' and nonstutterers' fluency in two speech contexts. Healey, E. C., & Ramig, P. R. Sept. 1986, 325-331.

Electroglottographic observations of young stutterers' fluency. Conture, E., Rothenberg, M., & Molitor, R. D. Sept. 1986, 384-393.

Studies in stuttering as a prosodic disturbance. Bergmann, G. Sept. 1986, 290-300.

Voice and Other Laryngeal Disorders

Characteristics of speech production after tracheoesophageal puncture: Voice onset time and vowel duration. Robbins, J., Christensen, J., & Kempster, G. Dec. 1986, 499-504.

Rhythm in Thai esophageal speech. Gandour, J., Weinberg, B., Holasuit Petty, S., & Dardarananda, R. Dec. 1986, 563-568.

Speech waveform perturbation analysis: A perceptual-acoustical comparison of seven measures. Askenfelt, A. G., & Hammarberg, B. March 1986, 50-64.

ASSESSMENT AND INTERVENTION

Assessment

Acquisition of semantic role by language-disordered children: Differences between production and comprehension. Connell, P. J. Sept. 1986, 366-374.

Acoustic Measures of Speech and Voice

Changes in aerodynamic characteristics of stutterers' fluent speech associated with therapy. Samar, V. J., Metz, D. E., & Sacco, P. R. March 1986, 106-113.

Characteristics of speech production after tracheoesophageal puncture: Voice onset time and vowel duration. Robbins, J., Christensen, J., & Kempster, G. Dec. 1986, 499-504.

A comparison of temporal measures of speech using spectrograms and digital oscillograms. Smith, B. L., Hillenbrand, J., & Ingrisano, D. June 1986, 270-274.

Relationship between intraoral air pressure and vocal intensity in children and adults. Stathopoulos, E. T. March 1986, 71-74.

Speech waveform perturbation analysis: A perceptual-acoustical comparison of seven measures. Askenfelt, A. G., & Hammarberg, B. March 1986, 50-64.

Studies in stuttering as a prosodic disturbance. Bergmann, G. Sept. 1986, 290-300.

Intervention

Acquisition of semantic role by language-disordered children: Differences between production and comprehension. Connell, P. J. Sept. 1986, 366-374.

A computer-controlled vowel corrector for the hearing-impaired. Povel, D., & Wansink, M. March 1986, 99-105.

Marking word boundaries to improve the intelligibility of the speech of the deaf. Maassen, B. June 1986, 227-230.

Instrumentation for Diagnosis, Treatment, and Research

Body type and speech breathing. Hoit, J. D., & Hixon, T. J. Sept. 1986, 313-324.

A comparison of temporal measures of speech using spectrograms and digital oscillograms. Smith, B. L., Hillenbrand, J., & Ingrisano, D. June 1986, 270-274.

Electroglottographic observations of young stutterers' fluency. Conture, E., Rothenberg, M., & Molitor, R. D. Sept. 1986, 384-393.

Intraoral air pressure and oral air flow under different bleed and bite-block conditions. Putnam, A. H. B., Shelton, R. L., & Kastner, C. U. March 1986, 37-49.

DISORDER SIMULATION IN NORMAL SUBJECTS

Intraoral air pressure and oral air flow under different bleed and bite-block conditions. Putnam, A. H. B., Shelton, R. L., & Kastner, C. U. March 1986, 37-49.

CLEAR SPEECH

Speaking clearly for the hard of hearing II: Acoustic characteristics of clear and conversational speech. Picheny, M. A., Durlach, N. I., & Braida, L. D. Dec. 1986, 434-446.

MOTOR CONTROL AND SPEECH

Interactions between speech and finger movements: An exploration of the dynamic pattern perspective. Smith, A., McFarland, D. H., & Weber, C. M. Dec. 1986, 471-480.

PROFESSIONAL AND GENERAL SCIENTIFIC ISSUES

PROFESSIONAL AFFAIRS

Research Issues and Methodology

An application of exploratory statistical methods to language pathology: Analysis of the Western Aphasia Battery's Cortical Quotient in acute stroke patients. Fromm, D., Greenhouse, J. B., Holland, A. L., & Swindell, C. S. March 1986, 135-142.

A comparison of temporal measures of speech using spectrograms and digital oscillograms. Smith, B. L., Hillenbrand, J., & Ingrisano, D. June 1986, 270-274.

EMG recording in human lip muscles: Can single muscles be isolated? Blair, C., & Smith, A. June 1986, 256-266.

TITLE INDEX

Acoustic measures of stutterers' and nonstutterers' fluency in two speech contexts. Healey, E. C., & Ramig, P. R. Sept. 1986, 325-331.

Acoustic-reflex growth for multitone complexes. Block, M. G., & Wiley, T. L. March 1986, 92-98.

Acquisition of semantic role by language-disordered children: Differences between production and comprehension. Connell, P. J. Sept. 1986, 366-374.

Analytic study of the Tadoma method: Language abilities of three deaf-blind subjects. Chomsky, C. Sept. 1986, 332-347.

Application of ABRs to the hearing-aid selection process: Preliminary data. Beauchaine, K. A., Gorga, M. P., Reiland, J. K., & Larson, L. L. March 1986, 120-128.

An application of exploratory statistical methods to language pathology: Analysis of the Western Aphasia Battery's Cortical Quotient in acute stroke patients. Fromm, D., Greenhouse, J. B., Holland, A. L., & Swindell, C. S. March 1986, 135-142.

Application of the Articulation Index and the Speech Transmission Index to the recognition of speech by normal-hearing and hearing-impaired listeners. Humes, L. E., Dirks, D. D., Bell, T. S., Ahlstrom, C., & Kincaid, G. E. Dec. 1986, 447-462.

Articulation development in preschool children: Consistency of productions. Kenney, K. W., & Prather, E. M. March 1986, 29-36.

Audiologic and nonaudiologic correlates of hearing handicap in black elderly. Marcus-Bernstein, C. Sept. 1986, 301-312.

Body type and speech breathing. Hoit, J. D., & Hixon, T. J. Sept. 1986, 313-324.

Changes in aerodynamic characteristics of stut-

terers' fluent speech associated with therapy. Samar, V. J., Metz, D. E., & Sacco, P. R. March 1986, 106-113.

Characteristics of speech production after tracheoesophageal puncture: Voice onset time and vowel duration. Robbins, J., Christensen, J., & Kempster, G. Dec. 1986, 499-504.

Communicative interactions of mildly delayed and normally developing preschool children: Effects of listener's developmental level. Guralnick, M. J., & Paul-Brown, D. March 1986, 2-10.

Comparison of hearing-aid gain using functional, coupler, and probe-tube measurements. Mason, D., & Popelka, G. R. June 1986, 218-226.

Comparison of pure-tone audibility thresholds obtained with audiological and forced-choice procedures. Marshall, L., & Jesteadt, W. March 1986, 82-91.

A comparison of temporal measures of speech using spectrograms and digital oscillograms. Smith, B. L., Hillenbrand, J., & Ingrisano, D. June 1986, 270-274.

A computer-controlled vowel corrector for the hearing-impaired. Povel, D., & Wansink, M. March 1986, 99-105.

Consistency of the effects of rate of speech on brain-damaged adults' comprehension of narrative discourse. Nicholas, L. E., & Brookshire, R. H. Dec. 1986, 462-470.

Conversational replies of children with specific language impairment. Leonard, L. B. March 1986, 114-119.

Damping the hearing aid frequency response: Effects on speech clarity and preferred listening level. Cox, R. M., & Gilmore, C. Sept. 1986, 357-365.

Development of conversational repair strategies in response to requests for clarification. Brinton, B., Fujiki, M., Frome-Loeb, D., & Winkler, E. March 1986, 75-81.

Development of velar consonants among normal two-year-olds. Dyson, A. T. Dec. 1986, 493-498.

Differential fine force control of the upper and lower lips. Barlow, S. M., & Netsell, R. June 1986, 163-169.

Direct language instruction and interactive language instruction with language delayed preschool children: A comparison study. Cole, K. N., & Dale, P. S. June 1986, 206-217.

Distribution of auditory response behaviors in normal infants and profoundly multihandicapped children. Flexer, C., & Gans, D. P. Sept. 1986, 425-429.

Effects of aging on response criteria in speech-recognition tasks. Gordon-Salant, S. June 1986, 155-162.

Effects of direction and rate of ear-canal pressure changes on tympanometric measures. Shanks, J. E., & Wilson, R. H. March 1986, 11-19.

Effects of white noise masking and low pass filtering on speech kinematics. Forrest, K., Abbas, P. J., & Zimmermann, G. N. Dec. 1986, 549-562.

Electroglottographic observations of young stutterers' fluency. Conture, E., Rothenberg, M., & Molitor, R. D. Sept. 1986, 384-393.

EMG recording in human lip muscles: Can single muscles be isolated? Blair, C., & Smith, A. June 1986, 256-266.

India ink pinprick assessment of age-related changes in the cricoarytenoid joint (CAJ) articular surfaces. Kahn, A. R., & Kahane, J. C. Dec. 1986, 536-543.

India ink pinprick experiments on surface organization of cricoarytenoid joints. Kahane, J. C., & Kahn, A. R. Dec. 1986, 544-548.

Influence of the acoustic reflex on vowel recognition. Dorman, M., Cedar, L., Hannley, M., Leek, M., & Lindholm, J. M. Sept. 1986, 420-424.

Interactions between speech and finger movements: An exploration of the dynamic pattern perspective. Smith, A., McFarland, D. H., & Weber, C. M. Dec. 1986, 471-480.

Interactive play: The frequency of related verbal responses. Craig, H., & Gallagher, T. M. Sept. 1986, 375-383.

Interdigitating muscle fibers throughout orbicularis oris inferior: Preliminary observations. Blair, C. June 1986, 266-269.

Intraoral air pressure and oral air flow under different bleed and bite-block conditions. Putnam, A. H. B., Shelton, R. L., & Kastner, C. U. March 1986, 37-49.

Magnitude estimation and the "paradoxical" loudness of tinnitus. Penner, M. J. Sept. 1986, 407-412.

Marking word boundaries to improve the intelligibility of the speech of the deaf. Maassen, B. June 1986, 227-230.

Masked and filtered simulation of hearing loss: Effects on consonant recognition. Fabry, D. A., & Van Tasell, D. J. June 1986, 170-178.

Middle-latency and 40-Hz auditory evoked responses in normal-hearing subjects: Click and 500 Hz thresholds. Kileny, P., & Shea, S. L. March 1986, 20-28.

Modulation detection by patients with eighth-nerve tumors. Formby, C. Sept. 1986, 413-419.

Movements of the upper and lower lips during speech: Interactions between lips with the jaw fixed at different positions. Folkins, J. W., & Canty, J. L. Sept. 1986, 348-356.

Previous experience as a confounding factor in comparing cochlear-implant processing schemes. Tyler, R. S., Preece, J. P., Lansing, C. R., Otto, S. R., & Gantz, B. J. June 1986, 282-287.

A reconsideration of the relation between age and mean utterance length. Scarborough, H., Wyckoff, J., & Davidson, R. Sept. 1986, 394-399.

Relationship between intraoral air pressure and vocal intensity in children and adults. Stathopoulos, E. T. March 1986, 71-74.

Rhythm in Thai esophageal speech. Gandour, J., Weinberg, B., Holasuit Petty, S., & Dardarananda, R. Dec. 1986, 563-568.

Sample size and type-token ratios for oral language of preschool children. Hess, C. W., Sefton, K. M., & Landry, R. G. March 1986, 129-134.

Scale composition and item analysis of the Communication Profile for the Hearing Impaired. Demorest, M. E., & Erdman, S. A. Dec. 1986, 515-535.

A signal-to-noise ratio for the speech-reception threshold of the hearing impaired. Plomp, R. June 1986, 146-154.

Simulation of pathological high impedance tympanograms. Van Camp, K. J., Shanks, J. E., & Margolis, R. H. Dec. 1986, 505-514.

Speaking clearly for the hard of hearing II: Acoustic characteristics of clear and conversational speech. Picheny, M. A., Durlach, N. I., & Braida, L. D. Dec. 1986, 434-446.

Speech cue enhancement for the hearing impaired: I. Altered vowel durations for perception of final fricative voicing. Revoile, S. G., Holden-Pitt, L., Pickett, J. M., & Brandt, F. June 1986, 240-255.

Speech waveform perturbation analysis: A perceptual-acoustical comparison of seven measures. Askenfelt, A. G., & Hammarberg, B. March 1986, 50-64.

Studies in stuttering as a prosodic disturbance. Bergmann, G. Sept. 1986, 290-300.

Teaching subjecthood to language-disordered children. Connell, P. J. Dec. 1986, 481-492.

Tinnitus as a source of internal noise. Penner, M. J. Sept. 1986, 400-406.

Tinnitus induced by tones. Kemp, S., & Plaisted, I. D. March 1986, 65-70.

Use of a monosyllabic adaptive speech test (MAST) with young children. Mackie, K., & Dermody, P. June 1986, 275-281.

Visual feedback and lip-positioning skills of children with and without impaired hearing. Fletcher, S. G. June 1986, 231-239.

Vowel perception: Experiments with a single-electrode cochlear implant. Doyle, K. J., Danhauer, J. L., & Edgerton, B. J. June 1986, 179-192.

Wh interrogative production in agrammatic aphasia: An experimental analysis of auditory-visual stimulation and direct-production treatment. Thompson, C. K., & McReynolds, L. V. June 1986, 193-206.
